

Introduction

Education is a pivotal and vital system. It cultivates and consolidates the culture of national identity and strengthens it among students by implanting belonging, cohesion, a sense of pride and participation in the journey toward the future . Education must also play a central role in promoting cohesion and mutual respect among the society various components.

Families have a great role in promoting and developing the national identity in their children's hearts through actual practices which reflect their love and belonging to the nation. They also work on spreading the concepts of national identity and good citizenship and all related knowledge, values, and principles.

Our Goals

Al Rushed American Private School makes exceptional efforts to enhance and establish the national identity among students through the following initiatives and practices:

1. Performing the morning assembly daily and regularly during which students and staff recite the national anthem and render a special salute to the flag.
2. Respecting the national salutation by ensuring it is performed in the best way with a proper recitation and correct stance which reflect respect for the national anthem, flag and belonging.
3. Reviving national events that strengthen the national identity and consolidate the spirit of belonging.
4. Presenting monthly programs during the morning assembly to foster the values of national culture, patriotism, and loyalty.

5. Encouraging students to present projects and presentations that reinforce the national identity .
6. Training students to build a culture of dialogue, discuss their issues, make appropriate decisions, and develop the feeling for pride in the nation.
7. Conducting competitions which aim to promote the national identity, such as Emirati culture, Emirati heritage and traditions, etc.
8. Participating in the events held by local authorities, such as National Day, Flag Day, etc.
